Subject: Sample Management Staff

Den,

Rupert said you were asking about RSC needs, etc for sample management support. In short I think we are ok.

In addition to the increase in START staffing, we have received support from ERT/SERAS. [Ex. 4 - CBI] will be here today. [Ex. 4 - CBI] has extensive laboratory experience with EPA and NIH. She has been to the Pocono Races and generally knows how we operate in Region III and has been doing ERs with ERT recently (i.e. Puerto Rico oil spill). In addition to [Ex. 4 - CBI] [Ex. 4 - CBI] will be here from SERAS. [Ex. 4 - CBI] is very familiar with sample management and Scribe. I have worked with [Ex. 4 - CBI] on other SERAS supported sites. We will continue to get this level of support from ERT until things are either finished or we "train" START.

Thanks for the efforts in Philly on this. Jackie will need an estimate of cost for SERAS, which ERT is working on.

Rich
